*According to [Perspectives in Public Health](#),  
workplace nutrition initiatives are estimated to  
increase productivity by at least 2 percent.*

## Keep Your Employees Engaged and Productive with Organic Fruit and Snacks

Dear Madeline,

Companies take the wellbeing of their employees seriously because they understand that a **healthy workforce is tied to the ability of a company to perform successfully.**

As an office manager, we understand one of your primary responsibilities is to ensure the wellbeing of your colleagues by making sure they have wholesome food and snacks. We know this can be a daunting task so **we've developed a great quality service to help you with that.**

Our Corporate Program is designed to keep your employees happy and energized. Some benefits include:

- An **easy, cost-efficient** way to supply your staff with healthy snacks
- Bi-weekly deliveries of **locally grown, organic produce** and locally created snacks
- The ability to customize your orders so you always have exactly what you need
- Deliveries made at the precise time you specify
- A great way to support local farmers and food producers

*"I love the nutritious fruit and snacks from Boston Organics. They keep our staff focussed and able to concentrate, especially when energy starts to dip mid-afternoon." Sally, Office Manager at Canter Engineering*

We'd love to hear from you to answer any of your questions or explain the program in more detail. Please call (555)555-5555 to speak with one of our representatives or visit [www.bostonorganics.com/corporate](http://www.bostonorganics.com/corporate) to set up a consultation.

To your health,

Mary Brown  
Marketing Manager
